Knowledge Management Updates - Owner Group

[BNS0244536](#)

April 2026

What is changing?

Removal of custom fields:

- **Owner Group**
- **Reviewer**
- **Publishing Group**
- **Publisher**

Current State:

Workflow	Published
* Owner Group	IT Service Desk
Author	Rodeth C Cruz
Reviewer	Rodeth C Cruz
Publishing Group	IT Service Desk KBase Admin
Publisher	Rodeth C Cruz

Reinstate OOB field:

- **Ownership Group**

Future State:

Workflow	Published
Author	Harold C Parker
* Ownership Group	ETE Infrastructure
* Will This Entire Article Be Restricted?	No

Ownership Group and Author Capabilities

Members of the Ownership Group:

- Can view the entire article
(including restricted sections)
- Can submit an article for retirement
- Can edit the entire article
- Approve publishing and retiring of an article
- Are notified:
 - When the article is submitted for approval
 - When the article is published
 - When feedback is given
 - For expiring / expired articles

Author (If not in the Ownership Group):

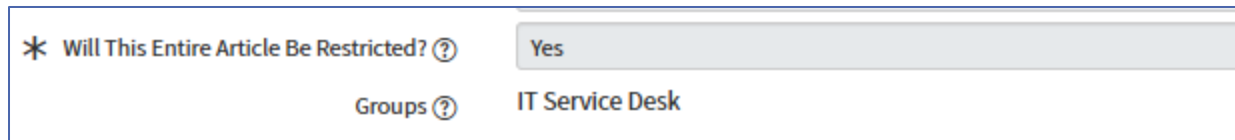

- Can view the entire article
(including restricted sections*)
- Can submit an article for retirement
- Is notified:
 - When the article is submitted for approval
 - When the article is published
 - When feedback is given

* If author is an "itil" user

Restricted Article / Sections

If an **entire article** is restricted:

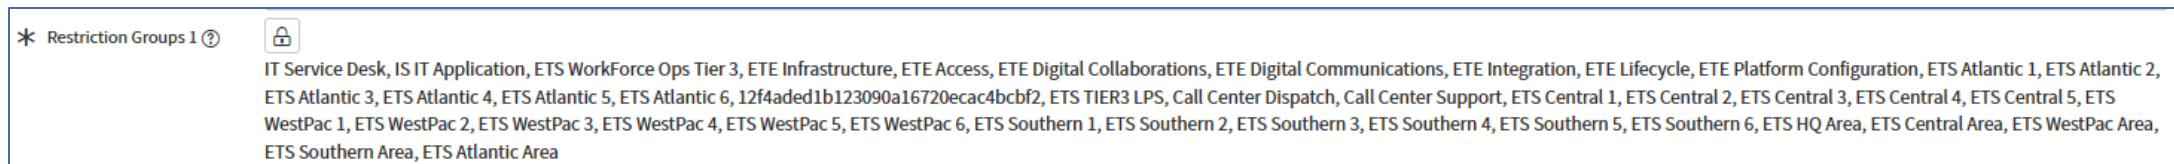

- **Ownership Group** members can view and edit the article
- Users not in the Ownership Group will not see the article
- **Authors** can view the article (even when not in the Ownership Group)

A screenshot of a web interface dialog box. At the top, it says '* Will This Entire Article Be Restricted?' followed by a question mark icon. Below this is a grey button labeled 'Yes'. Underneath the button, there are two links: 'Groups' with a question mark icon, and 'IT Service Desk'.

If **article sections** are restricted:

- **Ownership Group** members can view and edit the entire article (including restricted sections.)
- The **Author** can view the entire article (including restricted sections.)
- Users who are not members of the restricted groups will not see restricted sections.

A screenshot of a web interface dialog box. At the top, it says '* Restriction Groups 1' followed by a question mark icon. To the right of the text is a lock icon. Below this is a long list of groups: 'IT Service Desk, IS IT Application, ETS WorkForce Ops Tier 3, ETE Infrastructure, ETE Access, ETE Digital Collaborations, ETE Digital Communications, ETE Integration, ETE Lifecycle, ETE Platform Configuration, ETS Atlantic 1, ETS Atlantic 2, ETS Atlantic 3, ETS Atlantic 4, ETS Atlantic 5, ETS Atlantic 6, 12f4aded1b123090a16720ecac4bcbf2, ETS TIER3 LPS, Call Center Dispatch, Call Center Support, ETS Central 1, ETS Central 2, ETS Central 3, ETS Central 4, ETS Central 5, ETS WestPac 1, ETS WestPac 2, ETS WestPac 3, ETS WestPac 4, ETS WestPac 5, ETS WestPac 6, ETS Southern 1, ETS Southern 2, ETS Southern 3, ETS Southern 4, ETS Southern 5, ETS Southern 6, ETS HQ Area, ETS Central Area, ETS WestPac Area, ETS Southern Area, ETS Atlantic Area'.

Create a KB Article

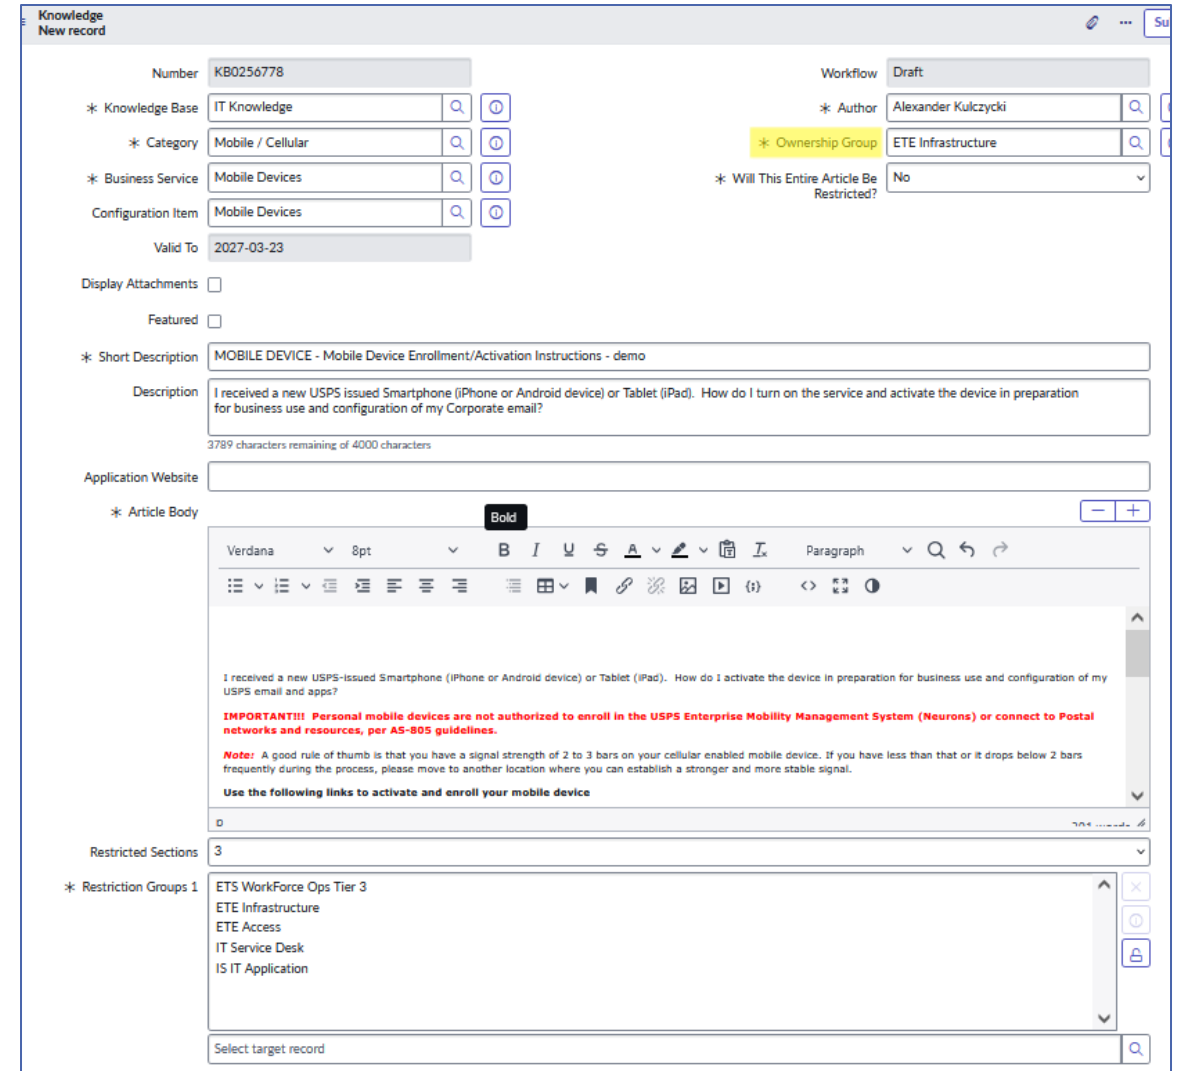

Create a new Knowledge Base Article

The Author:

- Fills in article form
- Selects Ownership Group
- Submits form
- Requests to publish article

Submit

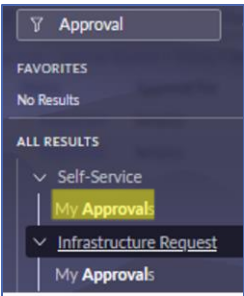

Publish

The screenshot shows the 'Knowledge Base New record' form. The form includes fields for Number (KB0256778), Knowledge Base (IT Knowledge), Category (Mobile / Cellular), Business Service (Mobile Devices), Configuration Item (Mobile Devices), Valid To (2027-03-23), Workflow (Draft), Author (Alexander Kulczycki), Ownership Group (ETE Infrastructure), and Will This Entire Article Be Restricted? (No). There are checkboxes for Display Attachments and Featured. The Short Description is 'MOBILE DEVICE - Mobile Device Enrollment/Activation Instructions - demo'. The Description is 'I received a new USPS issued Smartphone (iPhone or Android device) or Tablet (iPad). How do I turn on the service and activate the device in preparation for business use and configuration of my Corporate email?'. The Application Website is empty. The Article Body is a rich text editor with a toolbar showing Bold, Italic, Underline, and other formatting options. The text in the Article Body includes: 'I received a new USPS-issued Smartphone (iPhone or Android device) or Tablet (iPad). How do I activate the device in preparation for business use and configuration of my USPS email and apps?', 'IMPORTANT!!! Personal mobile devices are not authorized to enroll in the USPS Enterprise Mobility Management System (Neurons) or connect to Postal networks and resources, per AS-805 guidelines.', and 'Note: A good rule of thumb is that you have a signal strength of 2 to 3 bars on your cellular enabled mobile device. If you have less than that or it drops below 2 bars frequently during the process, please move to another location where you can establish a stronger and more stable signal. Use the following links to activate and enroll your mobile device'. The Restricted Sections field is set to 3. The Restriction Groups list includes ETS WorkForce Ops Tier 3, ETE Infrastructure, ETE Access, IT Service Desk, and IS IT Application. There is a 'Select target record' field at the bottom.

MOBILE DEVICE - Mobile Device Enrollment/Activation Instructions - demo

☆☆☆☆☆ 3 views

I received a new USPS-issued Smartphone (iPhone or Android device) or Tablet (iPad). How do I activate the device in preparation for business use and configuration of my USPS email and apps?

IMPORTANT!!!! Personal mobile devices are not authorized to enroll in the USPS Enterprise Mobility Management System (Memoros) or connect to Postal networks and resources, per AS-805 guidelines.

Note: A good rule of thumb is that you have a signal strength of 2 to 3 bars on your cellular enabled mobile device. If you have less than that or it drops below 2 bars frequently during the process, please move to another location where you can establish a stronger and more stable signal.

Use the following links to activate and enroll your mobile device

iPhone: [Activation and Enrollment Guide for iPhones](#)

Android: [Activation and Enrollment Guide for Androids](#)

iPad: [Activation and Enrollment Guide for new iPads](#)

IMPORTANT: You should ONLY contact the WidePoint Service Desk for **phone line activations** and **phone service** issues.

Example scenarios:

- If you receive a new mobile device and there is no phone line service available.
- If you receive an upgrade or replacement device for an existing service number, contact WidePoint Service Desk to activate the phone line.
- If you change service providers, contact WidePoint Service Desk to activate the phone line (1-855-909-1109 or 380-219-4072).

For **Mobile enrollment** support, please contact the IT Service Desk at 800-USPS-HELP (800-877-7435).

- Say "Technical Assistance" or Press 5
- Say "Continue" or Press 1
- For the name of the application, system or product say "Mobile Device"
- When prompted for Mobile Devices like smartphones or tablets, say "Yes"
- Say "Activation" or press 1, other mobile device issues say "Other" or Press 2
- [Enter your 8-digit Employee ID](#)

You will then be routed to a USPS IT Service Desk agent.

IT Service Desk (Tier 1):

If the user's mobile device enrollment fails, follow the steps below:

1. Verify that the device has a signal strength of 2 to 3 bars.

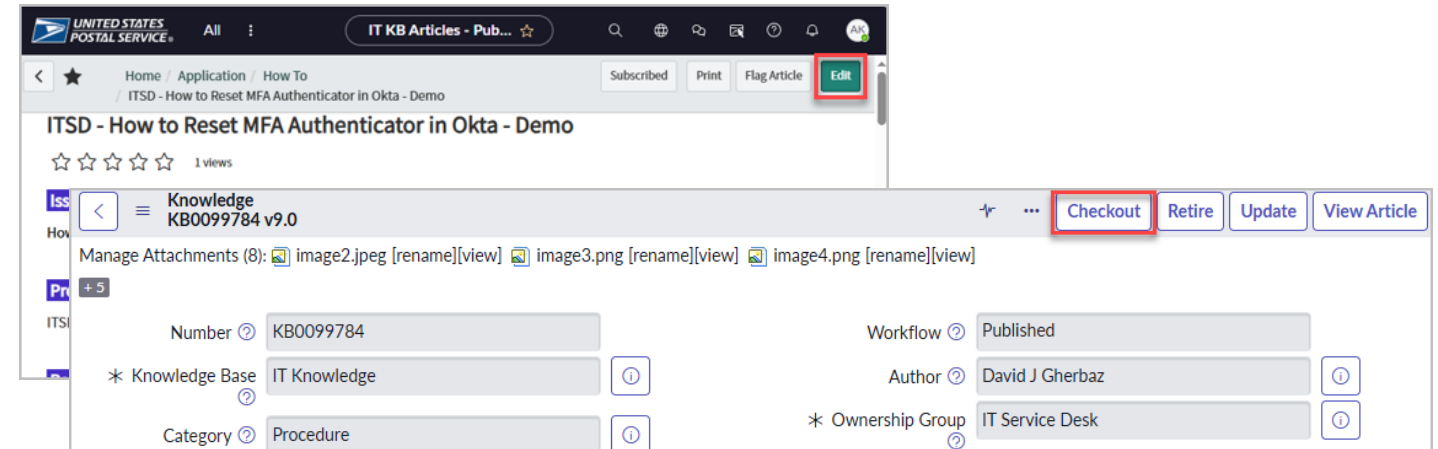

If it drops below 2 frequently during the process, please move to another location where a more stable signal can be established.

2. [Verify the Mobile Device ACE Authentication on the Login Screen](#)

Edit a KB Article

Edit - Existing article

A member of the **Ownership Group** can click [Edit] then [Checkout].

The screenshot shows the USPS IT KB article edit interface. At the top, there's a navigation bar with 'UNITED STATES POSTAL SERVICE' and 'IT KB Articles - Pub...'. Below this, a breadcrumb trail shows 'Home / Application / How To / ITSD - How to Reset MFA Authenticator in Okta - Demo'. A toolbar contains 'Subscribed', 'Print', 'Flag Article', and a red-bordered 'Edit' button. The article title is 'ITSD - How to Reset MFA Authenticator in Okta - Demo' with a star rating and '1 views'. Below the title, there's a 'Knowledge KB0099784 v9.0' section with a red-bordered 'Checkout' button, 'Retire', 'Update', and 'View Article' buttons. The 'Manage Attachments (8)' section lists 'image2.jpeg', 'image3.png', and 'image4.png'. The 'Form' section includes fields for 'Number' (KB0099784), 'Workflow' (Published), 'Knowledge Base' (IT Knowledge), 'Author' (David J Gherbaz), 'Category' (Procedure), and 'Ownership Group' (IT Service Desk). Each field has a red-bordered 'Publish' button.

Once the Edits are done, the **Ownership Group** member clicks [Publish].

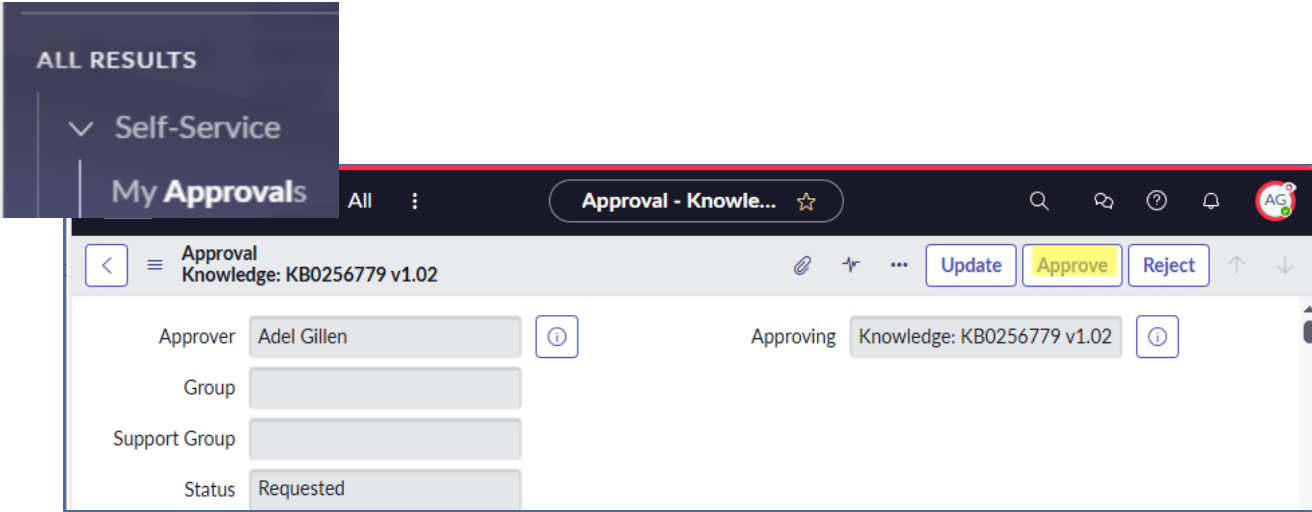

The screenshot shows the bottom of the USPS IT KB article edit interface. It displays 'Knowledge KB0256779 v1.01' and a red-bordered 'Publish' button.

Edit – Approval / Publish

A member of the **Ownership Group*** clicks [Approve].

*Authors cannot approve their own articles.

Article is published and visible on front end

Reject a KB Article

Article Rejected – revise and resubmit

A member of the **Ownership Group*** can Reject the Approval and the article will return to Draft where the **Author** can revise and resubmit.

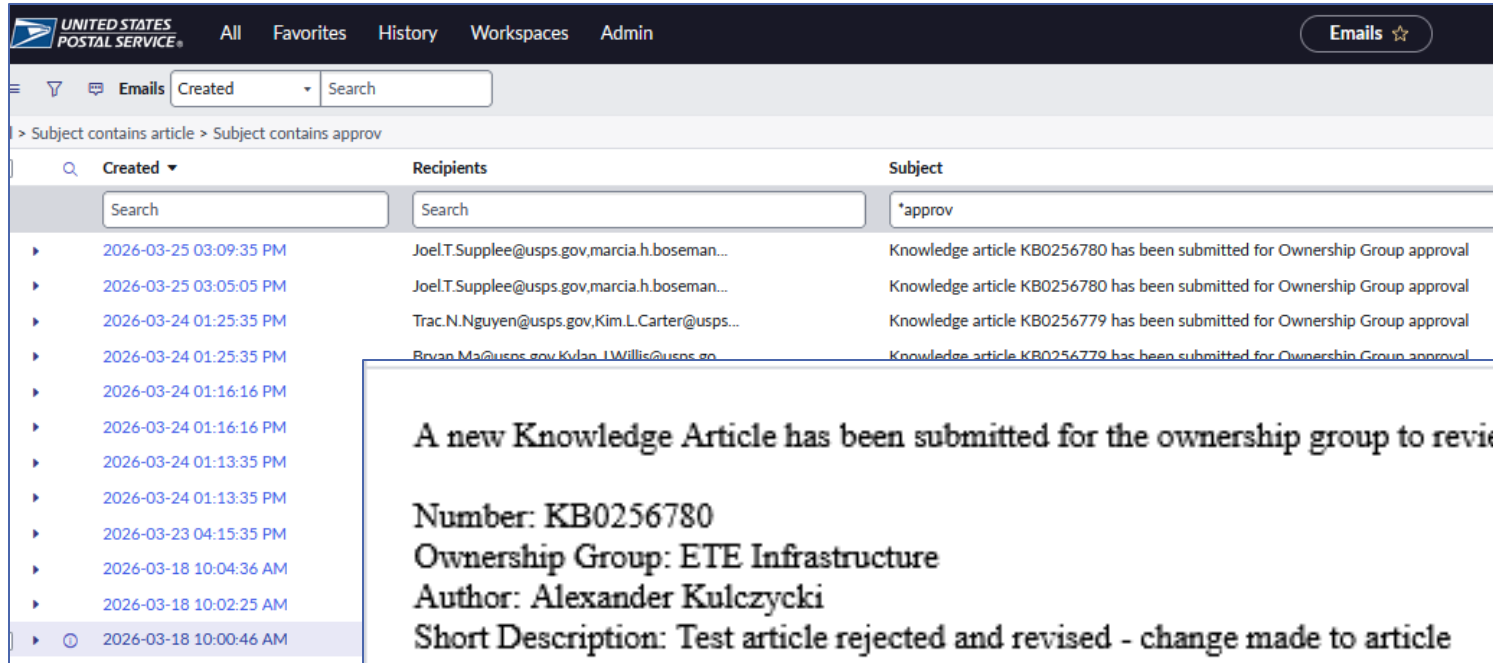

*Authors cannot reject their own articles.

A screenshot of a web form for article management. The form contains several fields: 'Number' (KB0256780), 'Workflow' (Draft), '* Knowledge Base' (IT Knowledge), '* Category' (Application), '* Business Service' (ACTIVE DIRECTORY), 'Configuration Item', 'Valid To' (2027-03-25), 'Display Attachments' (checkbox), 'Featured' (checkbox), and '* Short Description' (Test article rejected and revised - change made to article). On the right side, there are fields for '* Author' (Alexander Kulczycki), '* Ownership Group' (ETE Infrastructure), and '* Will This Entire Article Be Restricted?' (No). A 'Publish' button is located in the top right corner of the form, highlighted with a red rectangular border.

Notifications

Approval Notification

Approval notifications are sent to the **Ownership Group** to request approval.

The screenshot shows the United States Postal Service email interface. At the top, there's a navigation bar with 'All', 'Favorites', 'History', 'Workspaces', and 'Admin'. Below this is a search bar with 'Emails' selected and a 'Created' filter. The main content area displays a list of emails. The first email is selected, and its details are shown in a larger view on the right.

Expiry Notification

For the IT Knowledge Base:

Expiration notifications will continue to be sent to the **Ownership Group** based on the Valid To date.

Notification for articles that **will expire**.

IT Training Coordinators,

1 Knowledge Base articles under your responsibility are set to expire soon. Please [click here](#) to review your articles that will expire within the next 45 days.

To ensure the continued relevance and accuracy of our Knowledge Base, it is crucial to review and update these articles promptly. Expired articles are not available to end users. To prevent any disruption to our users, we kindly ask that you take the following actions before the expiration date:

1. Review each article for accuracy and relevancy.
2. If an article is no longer relevant or necessary, retire it.
3. Each relevant article's Valid To Date must be updated by clicking 'Checkout' even if no edits are necessary.
4. Update the content as necessary, ensuring that all information is current and in line with our [guidelines](#).
5. Republish the article.

Thank you for your prompt attention to this matter. Your efforts in maintaining the quality of our Knowledge Base are greatly appreciated and vital to the success of our organization. As a reminder, you can review the articles under your responsibility at any time by visiting the [Knowledge Management](#) dashboard.

Notification for articles that **are expired**.

USPIS CI2 NTC,

1 Knowledge Base articles under your responsibility have expired. Please [click here](#) to review the expired articles.

Articles that have expired are no longer visible on the Knowledge Base. However, they remain in the "Published" state on the backend and must be addressed promptly. We kindly ask that you take the following actions:

1. Review each article for accuracy and relevancy.
2. If an article is no longer necessary, retire it.
3. If the article is still relevant, update the content as necessary, ensuring that all information is current and in line with our [guidelines](#). Afterward, republish the article.

Thank you for your prompt attention to this matter. Your efforts in maintaining the quality of our Knowledge Base are greatly appreciated and vital to the success of our organization. As a reminder, you can review all the articles under your responsibility at any time by visiting the [Knowledge Management](#) dashboard.

ITSD - How to Reset MFA Authenticator in Okta

★★★★★ 3123 views

Issue:

How to Reset MFA Authenticator in Okta

Prerequisite:

ITSD Agent need to request **EAMS Help Desk Administrator** in ARIS.

Resolution:

Note:

Azure and Okta MFA are running in parallel. Some of USPS applications are still under Azure MFA.

For MFA **application** reset request, ITSD agents should perform searches in Okta using **Ace ID ONLY** and **DO NOT search by EIN**.

****Searching by EIN is to complete an MFA Account reset which is currently only handled by Local ETS****

You will then be routed to a USPS IT Service Desk agent.

IT Service Desk (Tier 1):

If the user's mobile device enrollment fails, follow the steps below:

1. Verify that the device has a signal strength of 2 to 3 bars.

If it drops below 2 frequently during the process, please move to another location where a more stable signal can be established.

2. Verify the Mobile Device ACE Authentication on the Login Screen.

If the iOS (iPhone or iPad) or Android (Samsung) mobile devices are not prompting the user to login as shown in the screenshots below, it's possible that the DEP or KNOX profiles have not been created. Collect the information below from the user and escalate the incident to Dispatch. Use the instructions below to assist the user in obtaining the necessary information and document in the work notes of the incident
